

New TPH - Kythe Child Life Coordinators

We welcome the latest additions to Kythe's family, **APRIL PALOMO** and **CHERRY UMBLAS**. Last January, the two girls underwent training in Philippine Orthopedic Hospital (POC) under Kythe's Executive Director, Girlie Garcia. They learned about the Child Life Program and how to implement it in their assigned hospital. Beginning February 1, Ate April and Ate Cherry will serve as the Kythe Child Life Coordinators in Tarlac Provincial Hospital (TPH). Good luck to you both, and welcome to the Kythe family!

Ate Cherry and Ate April with some of the POC kids

Ate April cooks *yema* with some POC kids as her activity for the Integrated Reading Program (IRP).
